---

**02** What's next?

---

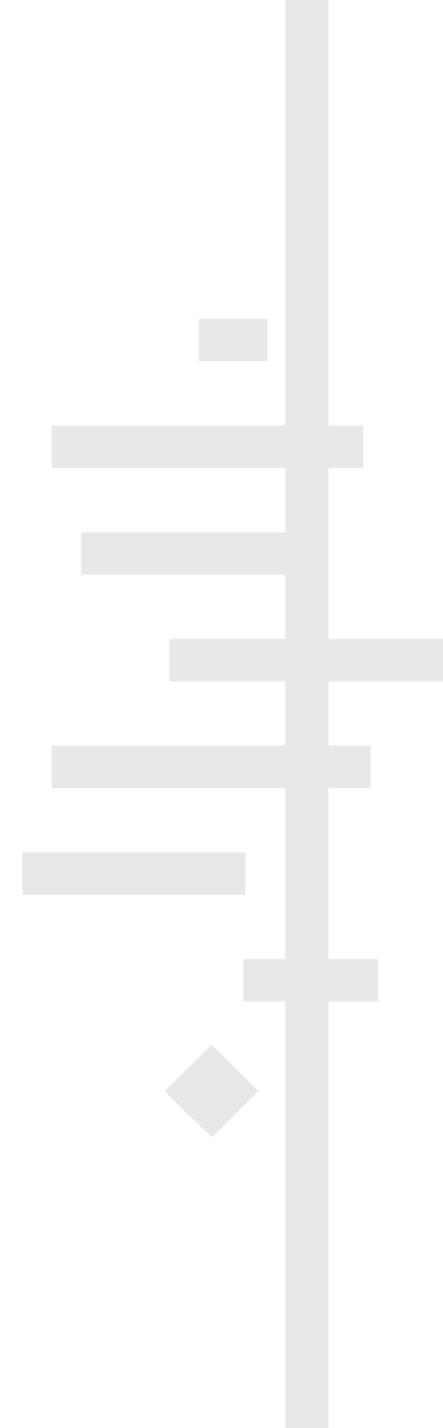

## Review production: new and updated reviews

## Time to publication

Elapsed time between publication of the protocol and publication of the review for reviews published in a particular year

Year	Median time
2012	28 months
2013	29 months
2014	27 months
2015 (to June)	28 months

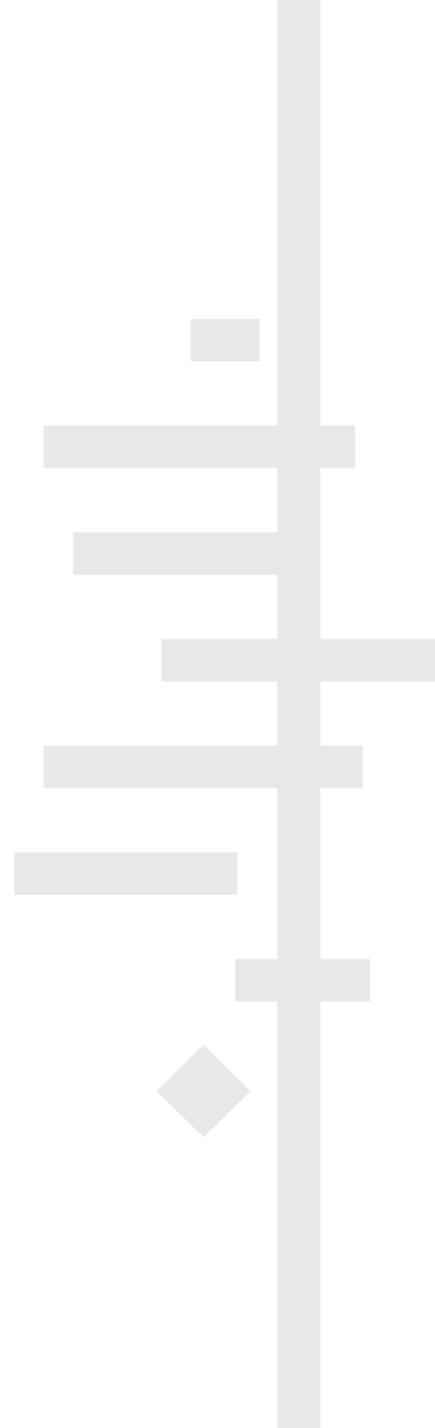

# How systematic reviews can reduce waste

“Research funders and regulators should demand that proposals for additional primary research are justified by systematic reviews showing what is already known”

“The present situation is ethically, scientifically and economically indefensible”

(Lancet series, paper 1, recommendation 3)

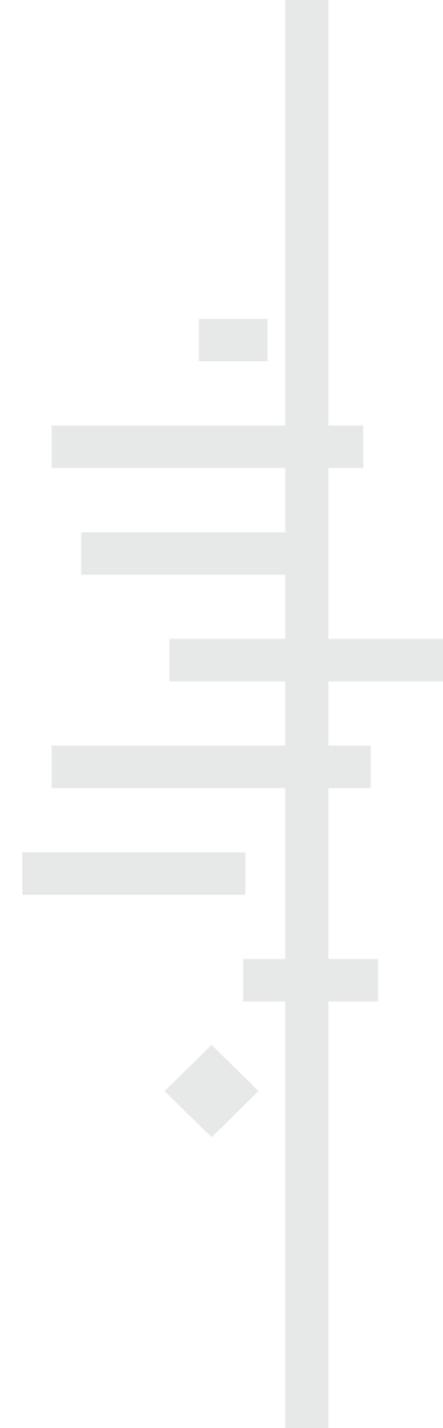

# How systematic reviews can reduce waste: why doesn't it happen?

Time taken for Cochrane empty reviews published 2010-2015:

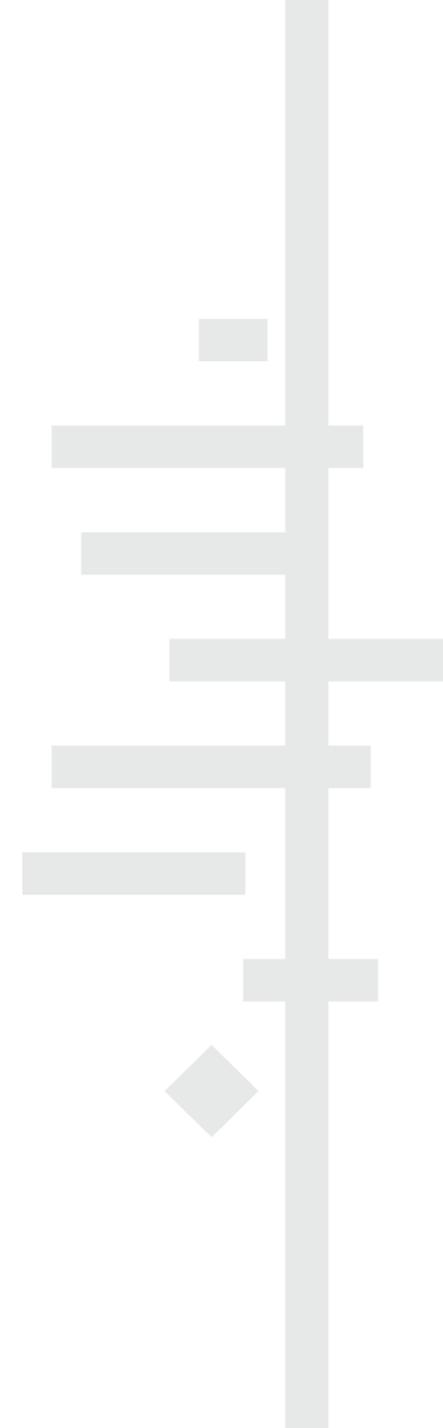

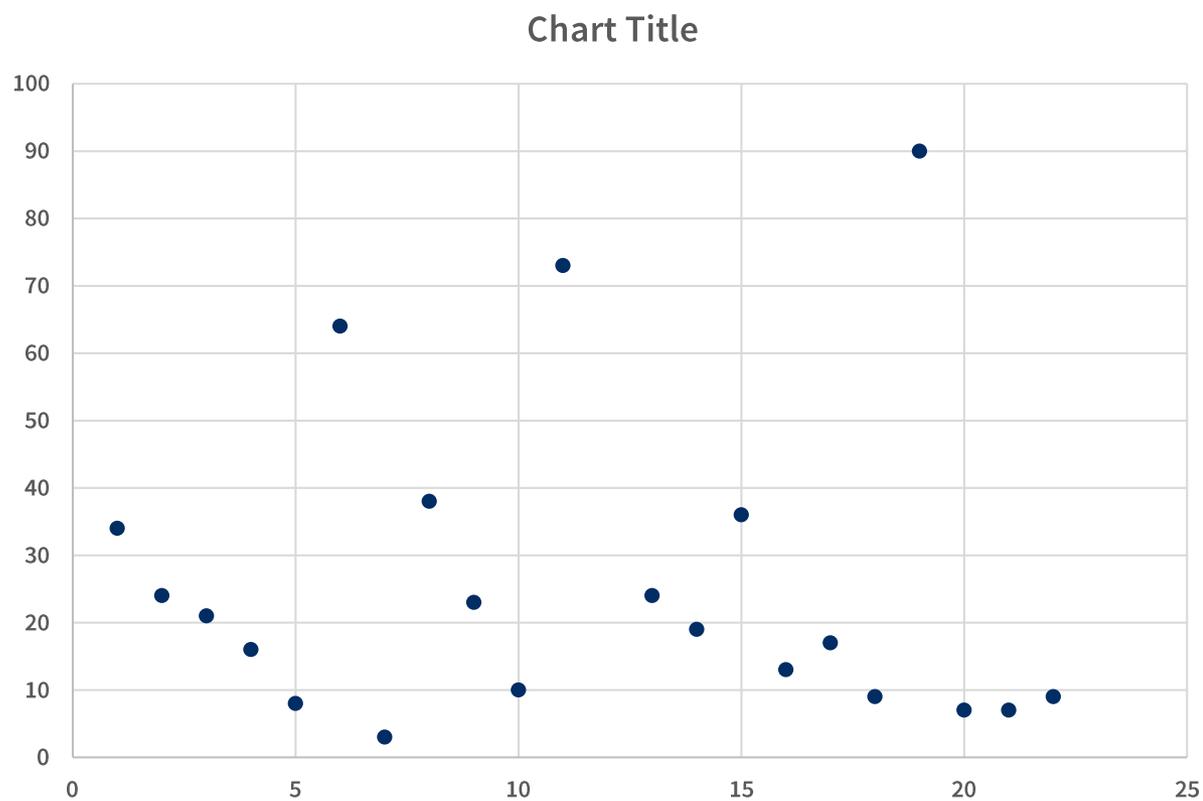

Minimum 240 days

“The effort required to do systematic reviews should be reduced..”

(Lancet series, paper 5)

# Priority reviews: protocol - review

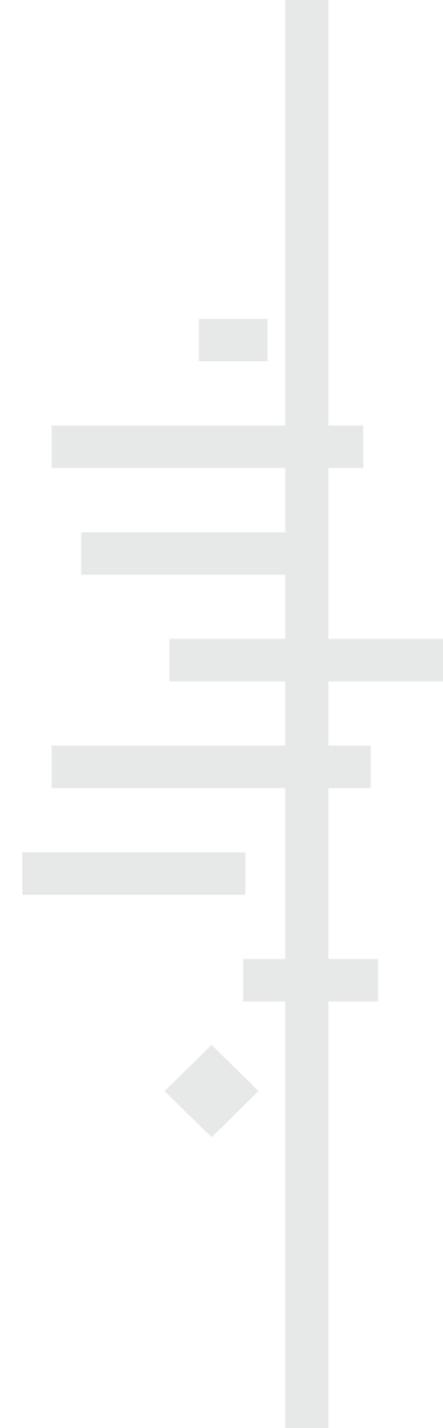

# Updating

Previously looked at reviews updated within last 2 years

New metrics based on Updating Classification Framework.

Some data:

	Proportion of active reviews updated within time period (as of June 2015)
Last 1 year	14%
Last 2 years	29%
Last 3 years	45%
Last 5 years	74%

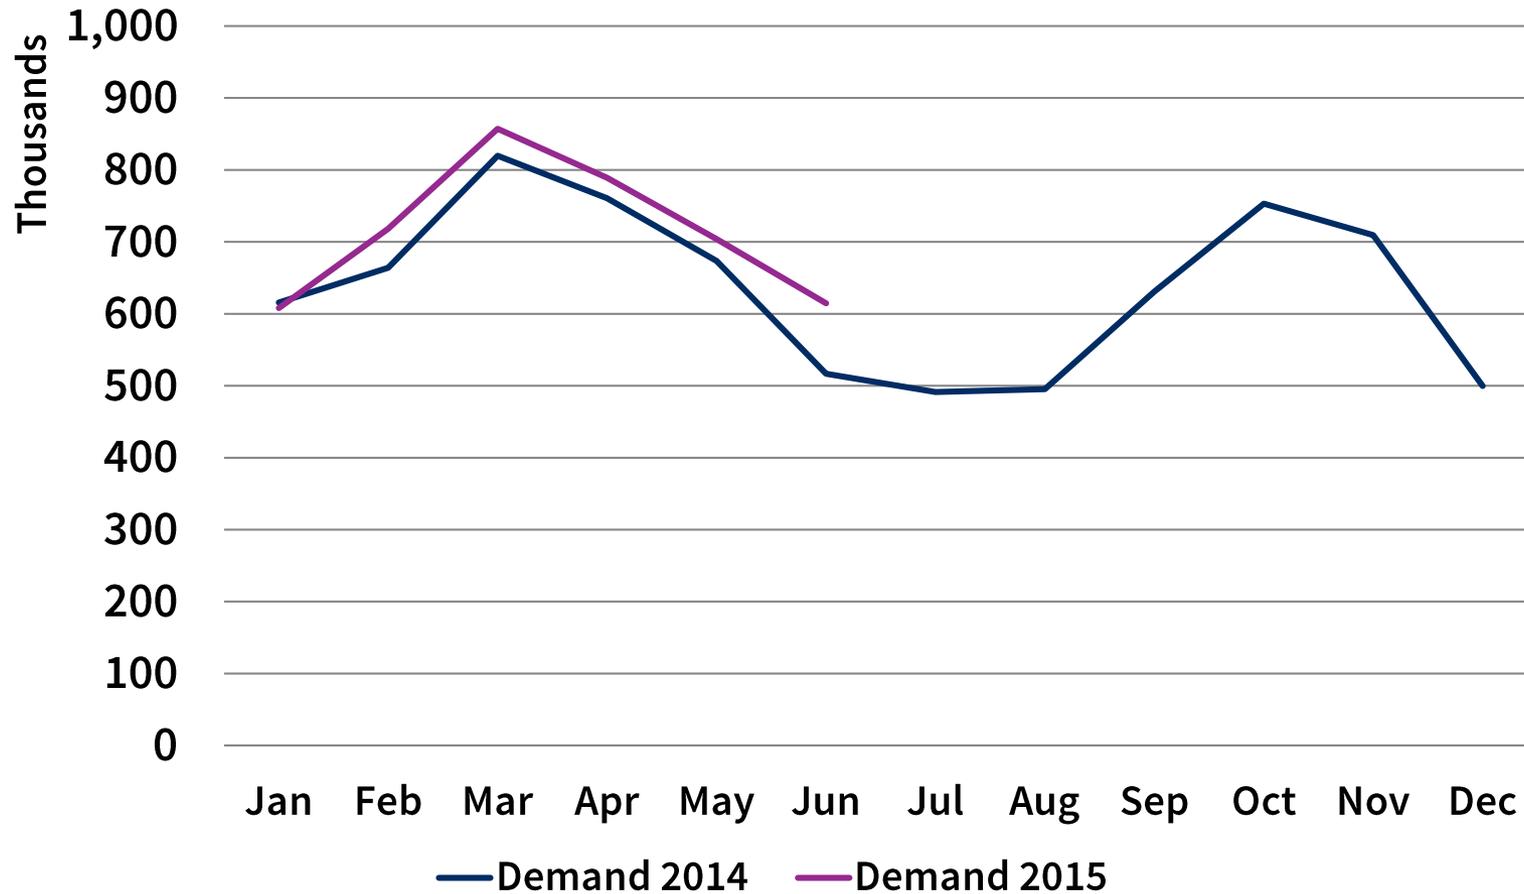

# Review quality

Audit of new reviews against a key subset of MECIR standards

	2013	2014
% with SoF tables	21/34 (62%)	13/22 (73%)

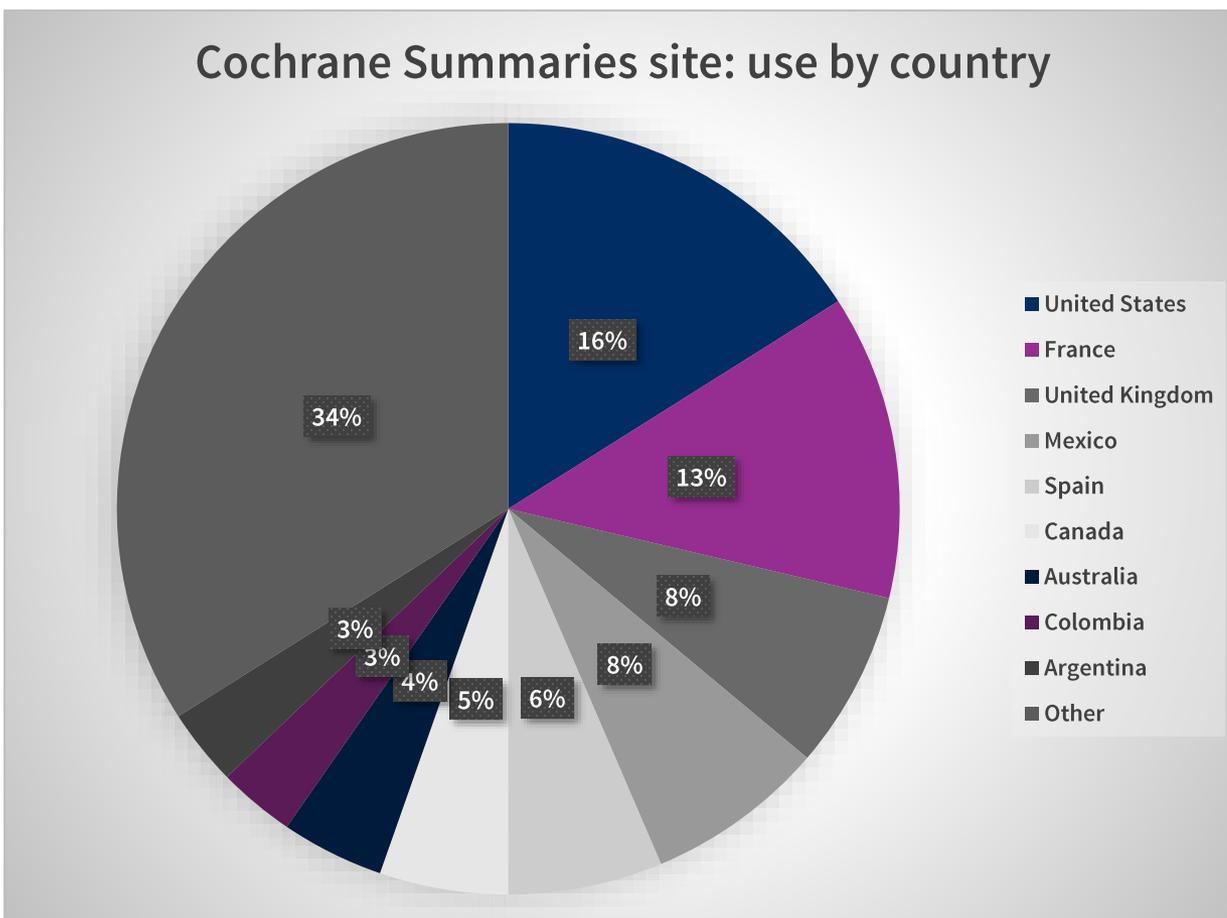

## Cochrane Reviews: overall demand

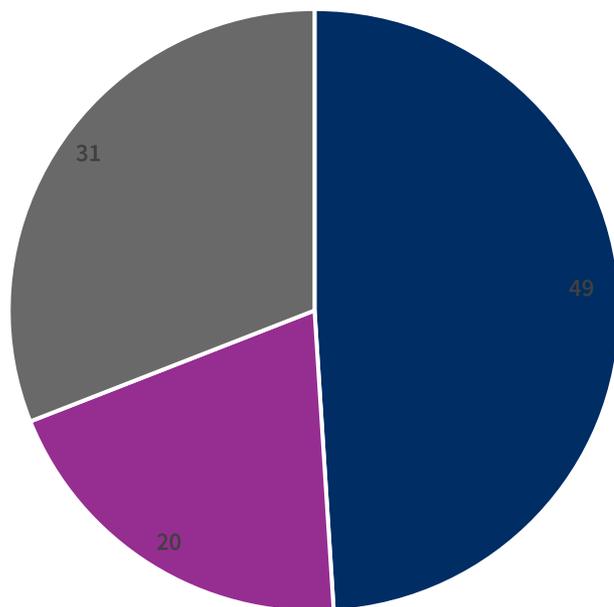

## Multi-language content

# Visits to Cochrane summaries

## Cochrane summaries: by pages visited

■ English ■ French ■ Spanish

## Citations and impact factor

Year	Citations	Impact factor
2011	7721	5.912
2012	8087	5.785
2013	9859	5.939
2014	11932	6.032

# Altmetrics

Altmetric score: measure of attention

Mean score for Cochrane Reviews: 10.5 (global average 5.1)

Top 3 Cochrane Reviews as of July 2015:

Score	Review	B	T	N	F	G	PR	W	PD
387	Neuraminidase inhibitors for preventing and treating influenza	15	209	21	8	1	0	3	0
338	Electronic cigarettes for smoking cessation and reduction	5	170	23	16	0	1	5	1
176	Vaccines for preventing influenza in healthy adults	0	185	4	74	1	0	0	0

# Portion, package or tableware size for changing selection and consumption of food, alcohol and tobacco

## What's next?

- Technology roll-out
- Changes in CEU priorities

# A bigger team than you think

Connect with the global Cochrane community to get your review done more quickly

[Post a task](#)[Contribute skills](#)

## What is Task Exchange?

Task Exchange is a platform that connects people who need help with their Cochrane reviews with people who have the time and expertise to help.

Here's how it works...

# Integrated quality development

- Quality assurance
- Quality improvement
- Editorial and methodology policy process
- Re-evaluation of the editorial process
- Review of the prioritisation list

Thanks for listening
