Translations of the MECIR Standards

Key points and introduction

Key points:

- **Cochrane encourages translations of the MECIR Manual in order to support the engagement of people with different native languages in Cochrane Review production.**
- **Full details on the conditions and process for translating the MECIR Manual can be found in the [Cochrane MECIR translations guidance](#)**
- **If you are interested in translating the MECIR Manual, contact support@cochrane.org.**

The Cochrane Evidence Production and Methods Directorate, Knowledge Translation Department and authors of the MECIR Standards encourage translations of the MECIR Standards in order to support the engagement of people with different native languages in Cochrane Review production.

The MECIR Standards are the ‘how-to’ guides for conducting and updating Cochrane Intervention Reviews and Updates. The MECIR Standards for the conduct of new Cochrane Intervention Reviews are embedded throughout the [Cochrane Handbook for Systematic Reviews of Interventions](#).

Translation proposals will be assessed and approved by the Cochrane Evidence Production and Methods Directorate and the Translations Coordinator. Please see the [Cochrane MECIR translations guidance](#) for full details on the conditions that must be met for MECIR translations, how to initiate a MECIR translation and keeping it up-to-date.

If you are interested in translating the MECIR Manual, or have any questions about the process or other general queries, please contact support@cochrane.org.
