

Access to the Cochrane Register of Studies is controlled through your Archie account.

Anyone with the role of Cochrane Information Specialist or Assistant Information Specialist within the Cochrane Archie system automatically has high level access to the CRS, and can view and edit records.

Only Archie super-users can assign this role to an individual, and each Cochrane entity should have at least one super-user (in most Cochrane entities, it is the Managing Editor). To gain access to the CRS, ask your group's Super User to check your role in Archie.

To log in:

1. Go to <https://crsweb.cochrane.org>
2. Click on "Login with Cochrane"

3. Enter your Archie username and password and click login.

Log in with your Cochrane Account

<p>Username</p> <input type="text" value="a.littlewood@manchester.ac.uk"/>	<p>Your Cochrane Account is your key to all Cochrane systems and services, such as Cochrane Crowd, TaskExchange, RevMan, Cochrane Interactive Learning, and Archie.</p> <p>Don't have an account? SIGN UP NOW</p> <p>Forgot your password? Reset password</p>
<p>Password</p> <input type="password" value="Password"/>	
<p>LOG IN</p>	

4. You will automatically access the segment of the Cochrane entity within the CRS.

Note that if you have an information specialist role in more than one group, you will be asked to select which entity you want to look at before you can login:

Select a group

You need to select one group from the list below, as you have multiple groups associated with your Cochrane account.

Lung Cancer Group (LUNGCA)

Select this group

Oral Health Group (ORAL)

Select this group

Click on "Select this group" for the entity of interest.

If you have any questions about logging into the CRS, or any questions about access to the database, contact cis-support@cochrane.org.
