### Cochrane Organisational Dashboard | Q2 (Apr-Jun) 2016

**Overview**

#### Key Target Achievements in Q2
- Following the Cochrane Gold Box score of 2016 and the decision to move to amber, the Cochrane Library rebuild project is progressing as planned with delays and in parallel with work on the new Cochrane platform.
- The Cochrane Library refactored project is progressing as planned with delays and in parallel with work on the new Cochrane platform.
- Governance reforms proposals completed and consultation opened in Q2, with final decisions to make in October at the AGM.

#### Target Goal
- Income and expenditure figures are cumulative year to date (YTD), the ‘Budgeted’ lines are simply median values as planned.
- With SOF
  - The new Cochrane Crowd platform was successfully launched.
  - Changing priorities led to a reprioritisation of the 2016 Targets, with several targets moving to amber due to delivery times.

#### Strategic Theme 2020 Targets for 2016 – progress (PR) and spend (SP)
- Prioritization List
- Reviews
- Protocols
- Issue 6
- Issue 7
- Issue 8
- Issue 9
- Issue 10
- Issue 11
- Issue 12

#### Commentary
- The Cochrane Library is the largest resource for systematic reviews of healthcare interventions. It contains over 4,000 systematic reviews and is used by researchers, healthcare professionals, and policymakers worldwide. The Cochrane Library is a major source of evidence-based information to inform healthcare decisions.
- The Cochrane Library is updated regularly to ensure that the information it contains is up to date and accurate. The updates are based on systematic reviews of the latest research in the field, and the library is regularly reviewed to ensure that it meets the needs of its users.
- The Cochrane Library is available online, and users can access it through a variety of interfaces, including the Cochrane Database of Systematic Reviews, CENTRAL, and Cochrane Collaboration’s Handbooks and Protocols.
- The Cochrane Library is also available in print, and it is distributed through a network of collaborating centres.
- The Cochrane Library is a valuable resource for healthcare professionals, researchers, policymakers, and the general public, and it is widely used in a variety of healthcare settings.

#### Notes on the data
- The Cochrane Library contains over 4,000 systematic reviews of healthcare interventions, and it is regularly updated to ensure that the information it contains is up to date and accurate.
- The Cochrane Library is available online and through a variety of interfaces, including the Cochrane Database of Systematic Reviews, CENTRAL, and Cochrane Collaboration’s Handbooks and Protocols.
- The Cochrane Library is also available in print and is distributed through a network of collaborating centres.
- The Cochrane Library is a valuable resource for healthcare professionals, researchers, policymakers, and the general public, and it is widely used in a variety of healthcare settings.
- The Cochrane Library is regularly reviewed to ensure that it meets the needs of its users.
