

Trusted evidence.  
Informed decisions.  
Better health.

## Systematic review services tailored to your evidence needs

We provide evidence services for policy makers, government agencies, guideline developers, and research groups.

We support knowledge translation through close engagement with commissioners, and respond to their needs for access to timely, targeted, and accessible evidence.

### Our services

Drawing on Cochrane's extensive experience and expertise, we offer a range of systematic review services and products, tailored to the needs of our customers.

- Systematic reviews and overviews
- Targeted Updates
- Rapid Reviews
- Scoping reviews and evidence maps
- Accessible and customized evidence reports
- Task-based review services that include searching, screening, data extraction, evidence synthesis, and report writing
- Project management for large, multiple systematic review projects

Trusted evidence.  
Informed decisions.  
Better health.

## How we work with guideline developers and policy makers

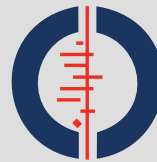

### FOUNDATION & PLANNING

We work closely with you to define the protocol, understanding the review's purpose, policy context, and audience.

### QUALITY & METHODS

We ensure access to Cochrane's networks and methodology expertise. We deliver everything in line with Cochrane brand values and quality standards.

We work to your timelines, balancing your need for high quality, cost effective and timely evidence services.

We provide review formats tailored to your needs: Rapid Reviews, Targeted Updates, Plain Language Summaries, other knowledge translation services and dissemination support.

### RESPONSIVE SERVICE

### FLEXIBLE OUTPUTS
