

# Cochrane Classmate

Helping you create interactive tasks to support learning about evidence production

**Classmate is for you if you teach any of these topics**

Evidence-based  
medicine

Citation screening

PICO

Trial design

Systematic review  
production

Reporting standards

## How it works

Teachers and trainers can choose from the Cochrane Crowd tasks, such as Identifying Randomised Trials, invite students to participate, monitor their progress and send feedback.

## Get involved

Classmate beta is available now:  
[crowd.cochrane.org/classmate](https://crowd.cochrane.org/classmate)  
Trainers from around the world are using it. Why not join them?

## The benefits

My students are learning by doing and I can monitor their progress

We're helping Cochrane find vital evidence about treatments

My students receive certificates of achievement

Get started now at [crowd.cochrane.org/classmate](https://crowd.cochrane.org/classmate)

**New modules coming soon:** Introduction to Study Design, and Introduction to CONSORT
