

A day-long virtual event format, blending webinars, expert panel discussions, curated online resources and networking opportunities. Each *A day with...* is dedicated to the work of a specific Methods Group and is open to anyone interested in systematic review methodology and the work of that Group.

A day with...

Information Retrieval Methods Group

October 22, 2020

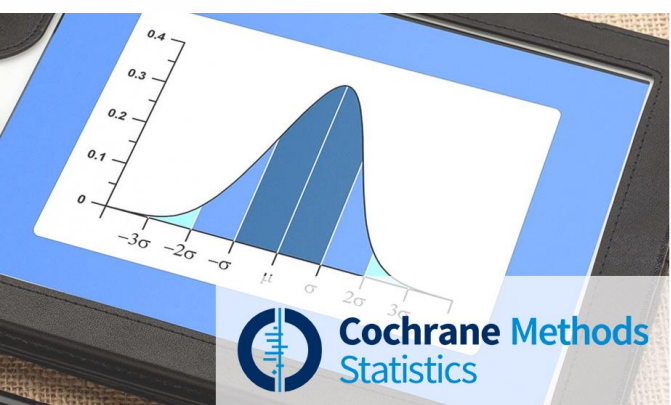

GRADEing Methods Group

November 18, 2020

Statistical Methods Group

May 11, 2021

Key aggregate figures from all events

1,049 attendees*

(*total number, not individuals)

20 presenters & panellists

7,816 programme page visits

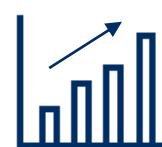

71 applications to relevant
Methods Group membership*

(*In the week following the events)

69% average increase in visits
to relevant CIL modules
compared to previous month*

(*three Interactive Learning modules were temporarily
made free access for a month around the IRMG &
GRADEing events)

Attendee feedback

“Good to have the chance to submit questions in advance and on the day. Great to have a series of events on the same day - really gives the ‘conference’ feel to the event, rather than one off webinars.”

“Thank you very much - really wonderful to hear the excellent presenters / panellists - in spite of these difficult times we can still learn together.”

“If you have been looking for alternative training strategies, well let me tell you that you have one already. The event was also pretty well organized, well done!”
