The Rector of RMANPO, Academician of the Russian Academy of Sciences (RAS) Dmitry A. Sychev, Senior Officer of US Network & Geographic Groups and Cochrane Central Executive Team Tiffany Duque and Cochrane Russia Director Prof. L. E. Ziganshina addressed the participants of the workshop with welcoming speeches.

They wished all participants and speakers a successful and fruitful workshop and noted the successfully developing collaboration between RMANPO and Lanzhou University, the host institutions of two Cochrane Geographical Groups – Cochrane Russia and Cochrane China, the traditional inclusion of joint Cochrane workshops in RMANPO scientific and educational events, the relevance of the workshop topic given the growing need for high-quality clinical guidelines to improve the quality and life expectancy of the population.

The event was moderated by the Rector, Academician of RAS Dmitry A. Sychev and Professor Liliya Eu. Ziganshina.

In the first report, Prof. Yaolong Chen spoke about the main development directions of Cochrane China and the WHO Collaborating Centre for Clinical Guidelines Implementation and Knowledge Translation at Lanzhou University, the RIGHT clinical guideline assessment tool, scientific
